

GMC YUKON 2015-2020 HEADLIGHTS INITIATION HARNESS INSTALLATION GUIDE

STEP 1

Locate provided Initiation harness (Fig 2) and connect the harness to each side of new headlights as shown. The short side will go to the passenger side and longer side to the driver side as shown in Fig 1.

STEP 2

Connect fork spade connector from passenger side to POSITIVE (+) side of battery. Secure harness to radiator support using supplied zip ties. Test all functions before driving on the road.
